

At our best, so they can be at their best!

Welcome Back, USD 105!

It's wonderful to have everyone back for another great year.

What's New?

Printers and Copiers—We have upgraded our document processing capabilities with a lease from Eakes Office Supply. I think we will like the upgrade once we learn how to use all the capabilities of the system. There will be a bit of a learning curve to get there, but the payoff will come.

The training on the new copier/printers starts Monday morning (August 23). There will be 3 sessions at the jr/sr high school--at 10:00, 10:45, and 11:30. Training sessions at the grade school will be at 1:00, 1:45, and 2:30.

The old printers and copiers are for sale in the grade school cafeteria. Bid sheets will be by each machine until 1:00 pm on Tuesday, August 24. In order to provide better, more efficient tech service, the district will no longer provide support for these old printers.

Please be patient as we get the bugs worked out of the new system.

Other Monday meetings:

There are others who will be doing some new jobs as well. Please be patient as we rearrange and learn new jobs.

Other things to notice—

The great job that **Gene, Arnetta, Darryl**, and their summer crews did on getting the buildings in sparkling clean condition over the summer.

The **enthusiasm, professionalism, and dedication** of **all USD 105 team members**.

What kind of year will this be?

It will be what we make it. Let’s make it great!
