DISTRICT #105 GOALS / OBJECTIVES

The district will develop a relevant outcome-based curriculum which identifies student competencies, provides for professional development and incorporated technology to enhance instruction and learning.

Students will show demonstrated competency in challenging subject matter, critical thinking, problem-solving and group interaction.

The district will establish and maintain a resource base to protect and ensure the continuity of programming from year to year; to retain highly qualified personnel; to upgrade equipment in order to provide student access and training for an ever changing job market; and to care for existing and planned facilities.

ACCIDENTS (K-12)

Any school employee who discovers an accident on school property shall report the accident to the building principal or designated representative. Also any student accident should be reported immediately and an accident report completed and turned into the school office. If an employee is injured on the job, the supervisor should be contacted immediately and a report shall be made within ten days.

ACTIVITY SCHEDULING, SPONSORS AND BUILDING SECURITY (K-12)

All school sponsored events, either curricular or extra-curricular, where teachers, students, and school facilities are involved, must be cleared with the principal and placed on the school calendar in advance. Failure to do so may result in cancellation of the activity. A weekly bulletin for school activities will be put out each week by the High School office.

A staff member responsible for an activity should be present and directly supervise students under his/her direction at all times. If a student activity demands the use of another teacher's equipment, the sponsor of the activity will be responsible for contacting that teacher and working out the details.

When the activity is over, the sponsor should be certain **all lights are turned off** and that **all doors and windows of the buildings being used are properly secured**. The last individual to use the facilities at night or on weekends is responsible for **closing and locking the outside gates** at RCHS.

All students must be under the supervision of a teacher while in the building. No students are to be in the building after school hours unless they are: (1) with a teacher or (2) have been cleared through the office. Do not allow a student access to keys to the buildings.

Any town organization using the school facilities must complete a Facility Use Agreement and have prior approval of the building administration. Also, a staff member must present **at all times**. If you are that staff member, remember you are responsible for the security of the building. Do not give other individuals access to school keys.

ANIMALS AND PLANTS IN SCHOOL (K-12)

Persons bringing animals and plants into the school must receive prior permission from the supervising teacher and the building principal. Animals, including all vertebrates, invertebrates, and toxic plants such as poison ivy or sumac, may be brought into the classroom for educational purposes only.

Under no circumstances are animals to be transported on school buses or vehicles.

Domesticated animals must be inoculated against rabies at the student's expense before the student may bring such animal to school. Animals must be adequately housed and cared for in screened cages. Handling of animals and plants by students must be on a voluntary basis. Only the teacher or students designated by the teacher are to handle the animals.

Teachers are to check with the school nurse regarding any known allergies existing among students, prior to granting permission for having an animal in the classroom. If allergies exist, parents must be contacted for further direction.

Teachers must assume primary responsibility for the humane, proper treatment of any animal in the classroom.

Teachers must be aware of federal and state laws regulating the handling of animals. (Cf.KSA 21-43 10)

If animals are to be kept in the classroom on days when classes are not in session, the teacher must make arrangements for their feeding, care, and safety.

All experiments using live animals must have prior approval of the principal or designated representative.

If an animal has bitten a staff member or student, the incident must be reported immediately to the school office. The principal is to assume the responsibility to notify public authorities to have the animal impounded for observation. The Principal will attempt to notify the parents. (Approved 7-1-03)

ANNOUNCEMENTS (K-12)

Announcements will be made by the office at the beginning of the school day and at the end of each school day. All announcements covering the day's activities should be made at these times in order to eliminate class interruptions. Such announcements should be submitted to the office the day prior to when they are to be made.

The absence report, in PowerSchool, should be completed at the beginning of each class so that it may be checked in the office. Tardies should be corrected by the end of each period.

BLOOD BORNE PATHOGENS (K-12)

The following serves as the required annual notification to employees regarding the board policy on blood borne pathogens.

The exposure control plan for blood borne pathogens is available for review from the superintendent or board clerk. All staff shall receive the training and equipment necessary to implement the plan.

A staff member should escort K-6 students to the EAST door of the cafeteria. If students can not go inside cafeteria, line them up along the outside wall and supervise them until they can go in. Grades K-3 may go to the playground by using either the north door of the cafeteria or via the north hallway door. Grades 4-6 use the east cafeteria door to go to the south playground. Violations of this rule that violate the privacy rights of students could result in disciplinary actions being taken against the employee, including termination.

DISCIPLINE REPORTS (K-12)

In all cases where a teacher has to discipline a student, he/she will fill out a log entry on PowerSchool. This is not necessary for minor infractions where no action except verbal reprimand is involved. For other cases, it is very important that this information be submitted. New log entries entered into PowerSchool will send an email to the building administrator.

Discipline is the job of all staff members. The entire staff sets the pattern for the conduct of students, both during the school day and at school sponsored activities. Where appropriate, the staff member will call the parent to discuss the incident.

DRUG FREE WORKPLACE (K-12)

The following is the required annual notification to employees regarding the board policy on drug free schools/workplace.

Alternately, or in addition to any action short of termination, the employee may be required to participate satisfactorily in an approved drug abuse assistance or rehabilitation program as a condition of continued employment. The employee shall bear the cost of participation in such program.

This is intended to implement the requirements of the federal regulations promulgated under the Drug Free Workplace Act of 1988, 34 CFR Part 85, And Subpart F. It is not intended to supplant or otherwise diminish personnel disciplinary actions which may be taken under existing board policies or the negotiated agreement.

The use of tobacco products or electronic cigarettes by any person, in any form, is prohibited in any school building, owned, leased or rented by the district that is used for pupil attendance purposes, or in any school vehicle.

If there is a student in your classroom who has an impairment that limits their ability to exit, then it is your responsibility to make the appropriate arrangements with other students to assist them. Students will not be released to parents/guardians during a tornado warning until the all-clear is given. **It is vital that teachers take their class clipboards and/or class rosters, with them during fire and tornado drills in order to check roll in case of actual disaster. Discrimination or harassment on the basis of race, color or national origin ("racial harassment") shall not be tolerated in the school district. Racial harassment of employees or students of the district by board members, administrators, certificated and support personnel, student, vendors, and any others having business or other contact with the school district is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color, or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of racial harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Racial harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee, or third party (visitor, vendor, etc.) to racially harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Racial Harassment is racially motivated conduct which:

1. Affords a student different treatment, solely on the basis of race, color, or national origin, in a disclaimer which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
2. Is severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or
3. Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student's academic performance or ability to participate in Or benefit from the services, activities or programs of the school.

Racial harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate complaints of racial harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial harassment or has witnessed an act of alleged racial harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the discrimination complaint procedure. (See KN)

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial harassment under the definition outlined above. Unacceptable student conduct may or may not constitute racial harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially motivated.

An employee who witnesses an act of racial harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial harassment to appropriate school Officials may face disciplinary action. School administrators who fail to investigate and take action in response to complaints of racial harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or SRS authorities. (See GAAD)

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the districts obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial harassment shall not reflect upon the student's status or grades. Any act of retaliation against any person who has filed a complaint or testified, assisted, or participated in an investigation of a racial harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee. 7-1-03
